About

TIS is a team of more than 300 dedicated professionals. Our resume concentrates on client-centered projects ranging from simple facility assessments to full services including planning, design, and construction assistance. The TIS team has a proven track record capable of servicing all clients from the small, start-up facility of less than 5,000 square feet to the heavy industrial facility of over 1 million square feet.

Organization

Thomasson Industrial Services (TIS) is an alliance offering full Architectural and Engineering focusing on Industrial Processing and Manufacturing, Warehousing, and Logistics facilities. Our services include:

- Planning
- Design
- Construction Administration
- Start-up Support/Commissioning Services
- Project and Program Management
