

Sumiden Wire Products Corporation

Manufacturing Facility
Dayton, TX

The TIS team provided full planning and design services, including architectural, site/civil, structural, mechanical, electrical, plumbing and fire protection design services for a new 115,000 SF light manufacturing (pickling, drawing, stranding of structural wire) and warehouse facility with interior office and employee amenities area. The construction is a Pre-Engineered Metal Building (PEMB) structure.

The project is located on approximately 22 acres and includes paved areas for the Rod Storage Yard (raw materials) and Rod Unloading/Pickling area, the shipping and receiving dock areas, traffic aisles, new access bridge and road, and employee/visitor parking lot.
